Population & Household Counts for Governmental Units:

2020, 2010, 2000

August 2021

The following report contains the 2020 census resident population and household counts for counties, municipalities, and subcounty areas from the P.L. 94-171 file produced by the U.S. Census Bureau. Counts for the 2010 and 2000 census are also provided.

The report consists of three sections. The first section provides counts for the state and counties. The second section provides counts all municipalities. The third section provides the counts for subcounty areas for each county which are listed alphabetically. Subcounty areas consist of incorporated places, such as cities and villages, and townships. The subcounty areas are geographically updated by the Census Bureau each year to reflect legal boundary changes reported in the Bureaus' Boundary and Annexation Survey. This report reflects the governmental hierarchy as reported to the Census Bureau by the local governmental entities.

In Ohio, municipalities and townships can cross county boundaries, which are reflected in the individual county pages. For example, the city of Columbus is reported in Franklin, Delaware, and Fairfield Counties, while the total population of the city is reported in municipality section. Municipalities located in multiple counties or townships will be shown with "(part)" after the name. Also, there are four townships, Canaan, Fairfield, Perry, and Washington with published counts in multiple counties as reported to the Census Bureau. These are identified in the individual county footnotes.
